RAILROAD COLLISION
On the Underground Rail-
road, London.

A VERY IMPORTANT DECISION.

A Couple of Cranks—Shipwreck, and
All on Board Drowned—Pearce
Secured—Standard Dollars.

An Important Decision.

SAN FRANCISCO, August 24.—An im-
portant decision was rendered, to-day,
by Judge Field, in the United States
Circuit Court, affecting the responsi-
bility of the municipality regarding Mont-
gomery Avenue bonds, which in the
past have occasioned a vast amount of
litigation. A number of years ago, the
municipal board of public works ordered
the opening up of the thoroughfare
termed Montgomery Avenue, and pro-
vided for the payment of this work by
issuing bonds, which were to be liqui-
dated by a special taxation on the
property-owners benefited by the
improvement. The action of the
board of public works was con-
firmed by a special act of the legis-
lature. The property owners there-
upon refused to pay the assessments of
bondholders, and then brought suit
against the city and county of San Fran-
cisco for the payment of the principal
interest bonds. Judge Field holds that,
apart from any action of the legislature,
the board of public works was not the
legally authorized agent of the city;
that the latter was, therefore, not the
party to the issuance of the bonds and
cannot be held liable for their payment.

A Couple of Cranks.

BAR HARBOR, Maine, August 24.—
sensational story has just leaked out
here, the substance of which is as fol-
lows: While a prominent politician of
New York City, a personal friend of
General Grant, was visiting the flag-
ship, with a party of ladies, a cer-
tain lieutenant on board, who
was still wearing the mourning
crape on his arm, indulged in elab-
orate remarks against General Grant
character and career. The politician
became very angry. On his return to
the shore he sent the slanderer a chal-
lenge to fight a duel. The latter de-
clined, on the ground that dueling is a
violation of the navy regulations. The
irate gentleman then notified the officer
that he would shoot him on sight, un-
less he accepted. The lieutenant finally
accepted, but while the preliminaries
were being arranged, the admiral hear-
ing rumors of the affair, and declined to
permit the lieutenant to go ashore
thus frustrating the duel, for the pre-
sent, at least.

ACCIDENTS IN LONDON.

A Fatal Fire and a Fearful Collision.

LONDON, August 23.—There was a
fatal fire to-day at Hexton, a poor and
crowded quarter of London. Owing to
lack of room, it was impossible for the
firemen to work effectively. There was
a terrible scene when the lodging house,
full of people, took fire, and in spite of
the gallant efforts to rescue the inmates,
a man and two children were burned to
death.

A FEARFUL COLLISION.

LONDON, August 23.—A terrible colli-
sion occurred this evening on the Met-
ropolitan District Underground Railway
at Earl Court. The signals had
broken and became unmanageable, and
two trains collided, engine against en-
gine. One engineer was killed and the
other and five others were so badly in-
jured that they cannot recover. There
was a horrible scene when the collision
occurred, as the railroad at that point is
underground.

Doesn't Like the Gazette.

LONDON, August 24.—The Standard
this morning, has a very strong article
on the demonstration at Hyde Park, on
Saturday. It says the meeting was
composed mainly of lookers-on, and
that the procession was a miserable af-
fair. The Standard openly charges that
the meeting was got up by the *Edin-
burgh Mail*, purely as a stroke of busi-
ness, and recalls how the *Gazette* blessed
the details of the Dilke-Pearce scandals, re-
cognizing that was of "a beastly nature."

Serious Frost in the Northwest.

ST. PAUL, August 24.—The signal ser-
vices here report that a killing
frost occurred last night, over the
greater portion of the northwest Terri-
tory, extending southward to the north-
ern part of Minnesota. The tempera-
ture fell to 25 degrees above zero at St.
Vincent. The air here in St. Paul is
crisp and chilly, but the sun is no
visitors are leaving the lakes in large
parties to-day for the south.

With all on Board.

BRANFORD, S. C., August 23.—The
steamship, *Alexandria*, which arrived
here yesterday, reports the loss of the
Scottish steam dredge *Beaufort*, on
August 23, off Bermuda. Captain
Penny and crew of ten or twelve men
are believed all to have been lost. The
Beaufort cleared from Savannah, on
July 20th for Greenock, Scotland.

Peace Secured.

LONDON, August 24.—The Standard
this morning, confirms the statement
that Russia has abandoned her claims
to Zulficar Pass, and says that peace is
thus secured.

Standard Dollars.

WASHINGTON, August 24.—The issue
of standard dollars from the mints dur-
ing the week ended August 23rd, was
\$73,497. The issue during the corre-
sponding period last year was \$91,497.

Quarantine Abolished.

GIBRALTAR, August 23.—Clear bills of
health are now issued to vessels sailing
from Gibraltar. There is no cholera at
the Spanish lines, and the two days'
quarantine established by the Gibraltar
authorities has been abolished.

**PLAGUE-STRICKEN
PLYMOUTH!**

**DOES A SIMILAR DANGER
THREATEN EVERY ONE OF US?**

How Public Attention is Directed
to Personal Perils.

"Judge," said a young lawyer to
a very successful senior, "Tell me
the secret of your uniform success at
the bar."

"Ah, young man, that secret is a
life study, but I will give it to you on
condition that you pay all my bills
during this session of court."

"Agreed, sir," said the junior.

"Evidence, indisputable evi-
dence."

At the end of the month the judge
reminded the young man of his prom-
ise.

"I recall no such promise."

"Ah, but you made it."

"Your evidence, please?"

And the judge, not having any
witnesses, lost a case for once!

The man who can produce indis-
putable evidence wins public favor.
I had an interview yesterday with the
most successful of American adver-
tisers, whose advertising is most suc-
cessful because always backed by
evidence.

"What styles of advertising do you
use?" I asked H. H. Warner, Esq.

"Display, reading matter, and par-
agraphs of testimonials."

"Have you many testimonials?"

In answer he showed me a large
cabinet chock-full. "We have
enough to fill Boston, New York,
Chicago, St. Louis, and Philadelphia
morning papers."

"Do you publish many of them?"

"Not a tithe. Wonderful as are
those we do publish, we have thou-
sands like them which we cannot use."

"Why not?" Let me tell you
"Warner's Safe Cure" has probably
been the most successful medicine for
female disorders ever discovered.

We have testimonials from ladies of
the highest rank, but it would be in-
delicate to publish them. Likewise
many statesmen, lawyers, clergymen,
doctors of world-wide fame have been
cured, but we can only refer to such
persons in the most guarded terms,
as we do in our reading articles.

"Are these reading articles suc-
cessful?"

"When read, they make such an
impression that when the 'evil days'
of ill health draw nigh they are re-
membered, and Warner's Safe Cure
is used."

"No, sir, it is not necessary now,
as at first, to do such constant and
extensive advertising. A meritori-
ous medicine sells itself after its mer-
its are known. We present just evi-
dence enough to disarm skeptics and
to impress the merits of the remedies
upon new consumers. We feel it to
be our duty to do this. Hence, best
to accomplish our mission of healing
the sick, we have to use the reading-
article style. People won't read plain
testimonials."

"Yes, sir, thousands admit that
had they not learned of Warner's
Safe Cure through this clever style
they would still be ailing and still im-
poverishing themselves in fees to un-
successful practitioners. It would
do your soul good to read the letters
of thanksgiving we get from mothers
grateful for the perfect success
which attends Warner's Safe Cure
when used for children, and the sur-
prised gratification with which men
and women of older years and im-
paired vigor, testify to the youthful
feelings restored to them by the same
means."

"Are these good effects perma-
nent?"

"Of all the cases of kidney, liver,
urinary, and female diseases we have
cured, not two per cent. of them re-
port a return of their disorders. Who
else can show such a record?"

"What is the secret of Warner's
Safe Cure permanently reaching so
many serious disorders?"

"I will explain by an illustration:
The little town of Plymouth, Pa.,
has been plague-stricken for several
months because its water supply was
carelessly poisoned. The kidneys
and liver are the sources of physical
well-being. If polluted by disease,
all the blood becomes poisoned and
every organ is affected and this great
danger threatens every one who neg-
lects to treat himself promptly."

I was nearly dead myself of extreme
kidney disease, but what is now War-
ner's Safe Cure cured me, and I know
it is the only remedy in the world
that can cure such disorders, for I
tried everything else in vain. Cured
by it myself, I bought it, and, from a
sense of duty, presented it to the
world. Only by restoring the kidneys
and liver can disease leave the blood
and the system."

A celebrated sanitarian physician
once said to me, "The secret of the
wonderful success of Warner's Safe
Cure is that it is sovereign over all
kidney, liver, and urinary diseases,
which primarily or secondarily make
up the majority of human ailments.
Like all great discoveries it is re-
markably simple."

The house of H. H. Warner & Co.
stands deservedly high in Rochester,
and it is certainly matter of congrat-
ulation that merit has been recognized
all over the world, and that this suc-
cess has been unqualifiedly deserved.
